Spec. CRANKS (Misc)

For Title Insurance with Triple
damages

I was electrocuted in an apartment after receiving activation notice of a Rosarok fellowship. There were in the apartment that I could not leave they asked me what I had and ~~what~~ they would use. I received a little insurance to insure my physical safety and that of three other persons. That's what that is for and nothing else ^{the voice} said.

Now I hear constant voices using
the father language the most

I have been told never to go
near

1. Black people
2. Ghetto people
3. poorer people etc.
4. Southern people

The Voice said what I had
was to be used by upper income
people but I could never be
known and I must never
use my name. The Bond
covers me and three other
people that I will name.

These persons have no
right to invade my privacy
or use anything as be in
any decision making capacity.

There in valent is that
of a conspiracy to subvert
the intent of the Bond

ridiculous ideas. After insurance was to be paid immediately upon application - Please direct me who is to handle it.

I no longer think I wish to have lawyers. Although the voice said use 5% for legal fees and keep every thing.

I know what my Life Insurance is with triple damages

I don't want any of these people to even come near me again.

I am applying for a post office box so that instructions can be sent to me there.

Please see if you can have these voices stopped.

These voices are constant and threaten my life.

Although I use an identification number I don't ~~but~~ I think these voices may over hear.

The Bond is for life and is not transferable and all information must be listed under this Title.

This was an original statement. This Bond is neither transferable nor can it be cancelled neither can the amount be reduced.

Yours Truly

Legislative Branch:

Will you please file for legal action against these people. They sound like a bunch of thugs.

This Massive Psychological Assault
These agencies that receive Federal funds shouldn't feel that these employees can take part in anything like this.

These persons knew exactly
who I was. They said never
use your name and you will
never be known; nothing in
your life can be used.

Instead of a P.O. Box
I am going to a Bond
~~off~~ to see if they will
file my insurance claim
with your agency.

That ~~the~~ was the original
suggestion
